SINGLE COPY, 5 CENTS

## Building Halt Near Breakdown

Fear that all construction on new houses and other buildings in Edmonton will be at a standstill by the end of this month because of shortages of steel products and other materials, was expressed unanimously by building contractors and housing officials Friday.

Their views corroborated statements from Ottawa that housing authorities were showing the deepest pessimism about the present shortage of nails and various steel products.

"Unless the current steel strike is settled, nearly all projects, private and otherwise, will be halted by the shortages of basic steel materials," it was stated here.

A survey conducted by the Edmonton Home Builders' association, composed of city contractors, showed that in July there were 1,600 homes under construction and not completed here. The amount was made by contractors taking three or four days to count each house individually.

Aware of the grave situation and determined to see that veterans are protected to the utmost, the contractors have formed an advisory committee which will meet every day noon to see that whatever materials are available go to the veterans.

**Will Help Veterans**  
"We have agreed to assist any veteran who needs help in completing construction of a home," the committee stated. The veterans are being established so that veterans who have homes more than half-completed will be able to complete them to finish the job.

On the committee are representatives of wholesalers, retail lumbermen, city commissioners and contractors.

More than 500 homes are being constructed here under the National Housing Act.

## Truman May Ask Congress Admit Jew Refugees to U.S.

WASHINGTON, (AP) — President Truman announced Friday that he is considering legislation to permit entry of Jewish refugees into the United States.

White House statement said the United States government "has not presented any plan of its own for the solution of the Jewish refugee problem," although the president has been in contact with Prime Minister Attlee.

The statement said it was clear that settlement of the Jewish refugee problem could be worked out that would be "fully satisfactory" to all parties concerned.

It added that a spirit of conciliation must be used if the problem of Jewish refugees is to be solved and bring peace and prosperity to Palestine.

Ordinarily a request for special legislation would be held off until after next Jan. 30, when a new congress convenes. There had been some speculation that the president might ask for such legislation.

An agreement in definite form, establishing overall authority for the United States to accept Jewish refugees, must be concluded at once between the City of Edmonton and the federal government.

There may be a number of other reasons why the city is not ready to accept Jewish refugees, through Edmonton in the near future, Mayor Amiel said Friday.

The United States, through a conference with a delegation of the Edmonton Chamber of Commerce in the City of Edmonton.

Mr. Hall conferred for two hours with a Jewish agency representative headed by the agency president, Dr. H. Weizmann, who carried away a concrete proposal to Paris was not disclosed.

## Canada Reports 482 Polio Cases

TORONTO, (CP) — Health officials in several Canadian cities urged additional precautions against the spread of infantile paralysis as 482 new cases of the disease were reported Thursday, bringing the Dominion's total for the year to 482.

The 482 cases under treatment in Canada are shown by province, Nova Scotia, six (one); New Brunswick, thirteen (one); Prince Edward Island, nine (two); Quebec, two hundred and ninety-two (ninety); Ontario, thirty-four (seven); Manitoba, eleven; Saskatchewan, twenty (one); British Columbia, none.

## Ex-City Doctor, Dr. T. Prust Dies

Physician and surgeon in Edmonton for 28 years and well known in the city, Dr. T. Prust died at his home in Peterborough, Ont., Thursday. Funeral services will be held Saturday.

A native of Blackstock, Ont., Dr. Prust was educated at Peterborough and Lindsay, and graduated from Trinity college, University of Toronto, in 1909. He was a member of the medical profession for 40 years.

He practiced four years in Hamilton, Mich., then moved to Saskatoon, where he remained for eight years before coming to Edmonton in 1912. He left here in 1940 to make his home in the east.

He was president of the Edmonton Academy of Medicine in 1921 and belonged to the Edmonton Society of Physicians.

Mrs. Prust is a graduate of the Toronto Conservatory of Music and was active in the Chamber of Commerce here before she and her husband moved to Peterborough.

Dr. Robert Broad, Edmonton physician, had been planning to go to Peterborough to visit Dr. Prust. He will leave about the end of the month to see Mrs. Prust.

## Either Side Accepts Brockington Proposal

By Torchy Anderson  
OTTAWA.—An abate in the steel strike now filtering its effects into the heart of Canada's industry was reached by the parliamentary industrial relations committee Thursday when it adjourned after hearing a report from L. W. Brockington, committee-appointed conciliator.

The offer to both parties by Mr. Brockington based on an immediate and retroactive hourly increase of 10 cents, with future increases based on production and the cost of living index, was rejected by both union and companies.

In a statement which announced, "We go home now," the union reiterated its final demands as being:

Ten cents retroactive to April 1 (when the ton price of steel was advanced 5¢); removal of the five cent differential between Dosco and the two Ontario plants; an adjustment of 5½ cents during the remainder of this year.

The companies have remained at their previously announced stand: Steel at Hamilton 10 cents; Algoma, Sault Ste. Marie, eight cents; Dosco at Sydney, no advance.

"Arbitrary refusal of certain members of the government to go past 10 cents increase was given by the union as the basis for its disagreement."

The statement charged that "some members of the government" and the steel companies have no serious desire to resume steel production.

H. G. Hilton, president of Steelco at Sault Ste. Marie, said the usual working force is producing 100,000 tons of steel a week. He said the vote is taken to determine the bargaining agency. This is an attack on the government's proposal.

Three in Canadian steel production. The union expressed itself willing to arbitrate certain details such as working conditions.

Date at which removal of Sydney differential should be retroactive; application of cost of living compensation; hours of work and overtime; vacation with pay; union security.

Settlement of the steel strike and other labor disputes current and in prospect appears to have boiled down to the question of living cost of living, the state of steel production, price control in general and patterns and conditions applied to other comparative industries.

He added: "Insofar as the government is concerned, it is up to them to make the settlement effective in Alberta and Dosco the government to take all possible measures for the purpose."

A few flakes of snow fell in Edmonton overnight. The temperature was given Friday for Edmonton, dropped to minus 10 degrees below zero.

Reports from along the Alaska highway indicated that a heavy snow storm was expected Saturday. Nelson reported a total overnight snowfall of 10 inches. The snow did not lie on the ground long, melting to higher ground temperatures.

## C.I.O. Demands U.S. Raise Wages

WASHINGTON, (AP)—The Congress of Industrial Organizations demanded Thursday the government raise wage standards under its stabilization program and hinted of a new round of wage demands unless the rise of living costs in the United States is checked.

Philip Murray, C.I.O. president, again called on President Truman to arrange a labor-management conference to consider pay boosts for labor and to frantically demand adequate guarantees for a stabilized national economy.

President William Green of the American Federation of Labor turned thumbs down on Mr. Murray's conference idea. He told reporters in Chicago "such a conference would not be productive of much result in labor relations" based on experience at the labor-management conference last winter.

Ireland shipped over 400,000 pickled sheepskins to America in the last year.

## Query British Pact With Trans-Jordan

NEW YORK, (AP)—The United Nations membership committee Thursday questioned ability of Trans-Jordan to maintain territorial integrity and political independence in the face of a military alliance with Great Britain and asked the Arab country for a full explanation.

The security council committee, acting at the suggestion of Russia, officially questioned the Middle East state in efforts to formulate a report on its application for entry into the U. N.

The committee moved in the wake of an earlier Polish demand that it delay action on the bid for a year.

**CONTINUE UNRRA WORK**  
GENEVA, (AP)—The policy-making committee of the United Nations Relief and Rehabilitation Administration Thursday night approved the continuance of UNRRA work on an international basis among displaced persons.

**Organists Agree**

THE MINSHALL ORGAN is outstanding because of its rich melodic music which adds so much to the dignity and beauty of a church service. Small and compact, it has remarkable volume when required.

If an expensive organ installation is beyond your church budget, then the relatively priced MINSHALL ORGAN is the solution. With this instrument you obtain true church music at a limited budget cost.

Many congregations are installing Minshall Organs as suitable War Memorials.

Write for literature and further information. Exclusive sales agents in Canada for Estey Organs.

\$1,115.00

F.O.B. Edmonton. Prices subject to change.

Successfully installed in over 30 churches in Edmonton territory

## Byrnes Charges Russian 'Abuse'

PARIS, (CP)—State Secretary Byrnes of the United States in a speech aimed at Russia declared Thursday the U.S. has suffered repeated abuse and misrepresentation at the peace conference, but "has no apology to make for the principles of justice, equality and freedom" it sought for the peace treaties.

Mr. Byrnes won immediate support from Britain's A. V. Alexander, who declared "the words of the first delegate of the United States are in full accord with the sentiments of Great Britain."

The American secretary, saying peace among the Allies in this interdependent world cannot be furthered by ignoring such attacks, hit at substitution of "some other country" for the peace Germany occupied in dominating the economy of the broken countries.

He defended vigorously the economic proposals made by the United States for the peace treaties, and in commenting on reparations deliveries said they "take valuable assets from these impoverished lands and necessarily slow down their economic recovery."

Mr. Alexander asked that the conference bear in mind its primary objective is to reach agreement with the five former enemy powers and to restore normal conditions in those zones.

Mr. Alexander announced once the treaty with Italy was signed, Britain would use her influence to obtain Italy's admittance to United Nations membership "as quickly as practicable."

Later Foreign Minister Molotov of Russia charged the United States "takes a stand against reparations, although the signature of the United States is on the agreement."

Referring to Mr. Byrnes' request for equal trade facilities for all countries, Mr. Molotov said "it can be used by those who have capital to subjugate other nations. He expressed doubt that Britain would apply the principle in its Empire."

## Clues Take Party To Lost Woman

TROUT CREEK, Ont., (CP)—Pencilled notes with the words "this way," a package of cigarettes and two rumple sailings bent together to form an arch were clues which guided searchers to Mrs. Mary Rees, 58, of Toronto, who was lost 24 hours in bushland near a disappearing district community 30 miles south of North Bay.

Charles Peachman of Trout Creek, member of a volunteer search party, found her as she stumbled on blistered feet along an abandoned railway spur line which she had hauled her way from the town.

When Mrs. Rees was found shortly after noon Thursday she still carried a pair of berries she had picked before she lost her way.

She left the signs as a trail for the searchers.

## N.Z. Announces Tax Reductions

WELLINGTON, N.Z., (CP)—Presenting New Zealand's first post-war budget, Finance Minister Nash Thursday stressed increase production as an answer to inflationary threats and the best way to better living standards.

Announcing taxation reductions, he said the guiding principles had been encouragement of production. Reductions include abolition of the profits tax, reduction of the war surcharge on income tax from 33 1/3 to 15 percent, abolition of the gold export duty and removal of the sale tax on building materials, clothing and furniture.

Under the new scale a man with a wife and two children earning the equivalent of \$1,000 a year pays total taxes of \$200, whereas \$100 child allowance from the social security fund. A man with the same family earning \$1,200 pays a total tax of \$739 and also receives \$106 child allowance.

Mr. Nash estimated the coming year's revenue at \$321,000,000 and expenditures at \$319,000,000. Defence expenditures were estimated at \$102,000,000.

## Elephant Unloaded for London Zoo

One of three elephants arriving aboard the animal ship City of Lille at Tilbury, Eng., for consignment to the zoo in London's Regent Park sailed through the air with the greatest ease, with the help of men, as the vessel unloaded its cargo. In addition to the pachyderms, two leopards, a rare snow leopard and 150 birds from India were in the shipment.

## Police to Search Victim's Papers

CHICAGO, (AP)—Gangland's guns have ended the life of James M. Ragen but may have failed to silence him.

The 45-year-old self-proclaimed foe of "all hoodlums," who amassed a fortune in the race-track news publishing business but "never took a bet," died Wednesday in a hospital from complications resulting from a shotgun ambush June 24—the second attempt on his life within two months.

In a 98-page statement given to State's Attorney William J. Tuohy after Mr. Ragen eluded would-be assassins by driving up to a police station April 29, the wealthy publisher accused remnants of the old Capone syndicate of attempting to muscle in on his enterprise. He ordered affidavits of evidence delivered to federal authorities in the event of his death.

Only last week William J. Connor, assistant U.S. district attorney, said he wanted to take Mr. Ragen before a federal grand jury to "fill in the gaps" in the statement which the publisher made to Mr. Tuohy.

There was not sufficient evidence in the statement, he added, to support possible federal anti-racketeering charges. Mr. Ragen's condition made it impossible to question him after he was shot.

Both the district attorney's office and the department of internal revenue showed interest in the Ragen in the statement, he added, were expected to obtain them from administrators or executors of Mr. Ragen's estate when his safe-deposit boxes are opened.

## Old Sourdoughs Gather in 'Frisco To Mush Again Over Trail of '98

SAN FRANCISCO, (AP)—In an atmosphere of nostalgia and tall tales, the intercontinental Sourdoughs of the Klondike gathered here Thursday for a four-day reunion—their first since 1942 in Seattle.

Approximately 1,500 persons directly or indirectly connected with the gold rush in a century ago are in attendance.

Old-timer D. E. Griffith of Seattle is one of those who feels keenly about this first post-war get-together.

"We sourdoughs have been homesick for this reunion for four long years. We feel like apologizing for turning back the pages of history 50 years, but we enjoy getting away, even for a day or two, from the swamps of selfishness and greed," he said.

"We're glad to reach back to the land of human sunshine where a man's word was his bond."

Griffith drove a dog team between Skagway and Nome in 1900. Mrs. Emilie La Grange, now 74, who claims she was the first woman to make the trip over Chilkoot Pass to the Klondike, is among the veterans. She travelled more than 2,000 miles from Bonanza, Alaska, for the reunion. She made the trip over the pass in 1896.

Youngest sourdough is 66-year-old Bert J. Parker, secretary of the Vancouver branch of the sourdoughs.

## Rackets Rampant Shanghai Area

SHANGHAI, (AP)—Confused and expensive Shanghai, once the queen city of the Orient, is not what it used to be, and many an old China hand sheds a quiet tear as he predicts that it never will be again.

Before the eight-year Japanese occupation, the city was famed for its smoothly-run international settlement and French concession. The Bund, famous waterfront street along the Whangpoo, is no longer a clean, orderly thoroughfare. Peddlers spread their wares in the street. Touts importuning passersby, offer all sorts of merchandise and services. Cycle-drawn rickshaws jam the sidewalks with the no-need-for-the-police.

Open-air stalls make traffic possible in others, notably block Alley, which derived its name from the number of fights spawned in the third-rate dancehalls and bars. An importer who had brought in some winter raincoats to retail at \$40 found that before he could get his cargo cleared through customs, he had lost the goods in sale in these stalls at half the price. They came, as did much other merchandise, from Shanghai's busy thieves.

Hair sets made of human hair are again an important export from China.

Madagascar is looking to new world markets for its heavy 1944 clove crop.

## Crime by Juveniles Said On Decrease

OTTAWA, (CP)—Juvenile delinquency, which reached an all-time high in 1942, is on the wane with the number of juvenile crime convictions in 1945 the lowest since 1940, the dominion bureau of statistics reported Thursday.

Juveniles brought before the courts in Canada in 1945 numbered 9,755 compared with 11,554 in 1944. Convicted of major or minor offences were 8,909 juveniles in 1945 against 9,917 in 1944.

Of the 5,758 convicted of major offences, 4,231 were first offenders and 1,527 repeaters. Boys were responsible for 5,516 of the major offences, with 242 attributed to girls.

## FINICKY STOMACH

*Pepto-Bismal is good for that.*

Gentle-acting PEPTO-BISMAL helps relieve after-meal distress, gas on stomach and heartburn. Recommended by many physicians. It's non-laxative, non-alkaline. Tastes good and does good... children like it. When your stomach is queasy, uneasy and upset, ask your druggist for soothing PEPTO-BISMAL.

## Stepping Out Between Honeymoons

Back from a honeymoon in Canada, Harry Conover, the big model, is shown with his bride, Candy Jones, who was Conover's No. 1 model, at the Steep Club. After a week in Manhattan, they plan to go to Texas and thence to the west coast on another honeymoon.

## Atlantic Shipping Short Until Spring

LONDON, (CP)—A transport ministry announcement that only 20 percent of the trans-Atlantic passenger accommodation available in August and September will be reserved for government-sponsored persons is expected to have little effect on the thousands waiting here for a berth to Canada.

There just aren't any ships. Shipping officials see small likelihood of anything like normal traffic being resumed between the United Kingdom and North America until next March or April.

Some will be lucky enough to get crossings on the Queen Elizabeth after her initial run in October. Others may be accommodated on the Canadian Pacific Steamships' new Empress of Canada—the former Duchess of Richmond—which may make two trips before the year-end. The rest will have to wait until liners become available next spring.

Company officials said they knew of no ships which will be released in the immediate future from the movement of troops and dependents.

## License Air Service In Edmonton, North

OTTAWA, (CP)—Air services to mining fields in Ontario, Manitoba and Alberta will be considerably augmented with approval by the air transport board of applications for non-scheduled charter commercial air services between Regina, Saskatchewan and Edmonton, Alberta.

Licenses were granted to Canadian Airways Limited to operate services out of Edmonton (airport and Coking Lake), McMurray, Yellowknife and Norman Wells in the Alberta and Northwest Territories area. The firm is a subsidiary of Canadian Pacific Airlines, Ltd., and has been operating scheduled services in these regions for some time.

## PASSES DOCTOR EXAMS

OTTAWA, (CP)—Dr. J. Fenton Arce, registrar of the Medical Council of Canada, announced 183 candidates, including 13 women, passed their examinations for doctors held at Montreal, Winnipeg and Vancouver. The western list, including Dr. F. H. DeCose, St. Paul, Alta.

## Gets Cheap Rides Can't Get Arrested

INDIANAPOLIS, (AP)—James M. Dawson is trying to get arrested and can't.

He wants to file a suit testing a court order increasing arrest car fare but has been in Indianapolis for a week and has not been arrested.

He got on a trolley Wednesday and offered the motorman a metal token. The company had announced the metal tokens no longer were good for rides.

The motorman called a policeman and he refused to arrest Dawson. Dawson rode on the trolley Thursday and again offered a metal token.

The motorman took it this time with no protest.

## Australia Plans Free Medical Aid

TORONTO, (CP)—Free medical and hospital services for every Australian citizen will be introduced by the Commonwealth government early next year, F. H. Rowe, director-general of social services for Australia, said Thursday at a luncheon given by the Health League of Canada.

Mr. Rowe, in Canada at the invitation of the Canadian government to discuss social welfare in the two dominions as well as other matters of mutual interest, will visit Montreal shortly. He will tour western Canada.

The Australian government will spend more money than ever before on its national fitness program, said Mr. Rowe.

## Gold Rush Started By N. Y. Gardener

FORT LEE, N.J., (AP)—A gardener started a "gold rush" in the New Jersey Palisades Thursday when he found a piece of quartz which he said contained gold.

Raymond B. Miller of New York picked up the rock fragment while working in the garden of the Riverside, a night club across the Hudson river from Manhattan, and the news brought scores of men and boys with picks and shovels, intent on prospecting.

Bill Miller, owner of the club, said he didn't know whether it was gold or not and that he would have assayed it. Meanwhile, he posted three guards to keep out amateur prospectors, who were determined to burrow through the garden.

## Freddie Cochrane Claims He's Broke

NEWARK, N.J., (AP)—Freddie Cochrane, former world welterweight boxing champion, says he's broke.

Cochrane, testifying in a separate maintenance suit brought in Chancery court against him by his former wife, Beatrice, said he didn't "get a penny" of the \$50,000 divorce award. He was supposed to have earned it in the title bout last February when he lost the crown to Marty Servo.

Cochrane's manager, William O'Brien, testified before Advertiser Master Robert Grossman that \$25,000 was sunk in "a deal" to promote the fight because Cochrane had recently been released from the navy, was a "sick boy" and had no money possibilities.

O'Brien also said that the \$25,000 was sunk to him to cover "investment" money. He had made to Cochrane while the fighter was in the service and while he was training for the fight.

## Russians Regret Missed King Party

PARIS, (CP)—Senior delegates to the peace conference for the Ukraine and White Russia expressed their regret Monday that Canadian ambassador to Russia, that they were unable to attend the reception given Monday night by Prime Minister King. It was learned Thursday. The Russians said they were detained when the conference remained in session later than expected.

## Disastrous Steel Deadlock Threat Removed in Britain

By Basil Dean  
LONDON.—British Labor government and the owners of the steel industry—can have been glaring balefully at each other since the government announced its intention to place the most steel production under state control—have now come to terms.

These terms constitute a moral victory for Socialist Supply Minister, Mr. Bevin, and the owners of steel mills will assist the government in laying plans for immediate reorganization of industry, but at the same time the government has agreed that it won't expect them to advise on drafting measures for nationalization—towards which the owners naturally feel a great bitterness.

This move ends what had promised to be a disastrous deadlock. The problem of effecting state control of basic iron and steel production is so complex that the government cannot hope to work it out for two or three years. In the meantime, the entire industry is in dire need of extensive reorganization, modernization and weeding out of obsolete and inefficient plants which the British steel industry prices far above the Canadian level.

The new deal means that reorganization schemes can go ahead at once, with the best brains in the steel industry behind them. In return for their agreement to co-operate with the government, the owners retained a wide measure of freedom in methods of reorganization without compromising their opposition on principle to nationalization.

The government, on the other hand, can now take its time about drafting nationalization laws while efficient individuals as a whole are being built up.

The majority of steel plants will be taken over by the state within the next few years anyway, but private owners will probably be told that the amount of compensation they receive will depend largely on the state of efficiency in each plant at the time it is nationalized.

## Yugoslavs Claim Allies Help Mob

BELOGRADE, (AP)—Yugoslavs, in a strongly worded protest, have charged British and American troops with aiding "Fascist mobs" against Yugoslavs in the western part of Venezia Giulia, zone "A," occupied by the American and British forces.

The foreign ministry said the note was the sixth since March 12 to the United States and British embassies concerning alleged "Fascist" attacks on Yugoslavs and their property, and portraits of Marshal Tito as well as "Fascist" attacks on Yugoslav citizens in zone "A" enjoy no special rights, but are treated as "Fascist" because it has been established by facts that Allied military police or their armed forces regularly place themselves on the side of the "Fascist" mob, thus limiting themselves to the role of passive observers, which means they are extending moral support to the "Fascist" mob.

## No Plan to Use Grain Exchange

By Richard Sanburn  
OTTAWA.—Neither the Winnipeg grain exchange nor any other grain exchange would be used to dispose of surplus Canadian wheat, it was stated in the common statement by Trade Minister MacKinnon.

He was replying to a question about wheat surplus after the war, when the British contract had been met.

## Drew Refuses To Be 'Puppet'

FORT WILLIAM, (CP)—There must be further dominion-provincial cooperation to settle the financial differences between the major governing bodies but the Ontario government has no intention of becoming a "mere puppet" administration, Premier Drew said Thursday night.

In a dinner address to the Association of Ontario Mayors and Reeves, Premier Drew reviewed the events leading to disagreement between federal and provincial authorities and said the accusation that Ontario was a "mere puppet" of provincial rights was "wholly untrue and directly contrary to the facts."

## Wife-Slayer Dies In Electric Chair

MONTGOMERY, ALA., (AP)—A light, 41-year-old ex-slave died in Kilby prison's electric chair Friday morning after being convicted of slaying a twin brother serving a life sentence for a murder committed 20 years ago.

William Edgar Alston, killed his second wife while on parole from a life sentence.

Julian, his twin, was visibly moved by his brother's death.

The twin brothers, who married twin sisters, were sentenced to life imprisonment for slaying Melvin Kimball in 1926, but were subsequently paroled. After divorcing his wife, William Edgar remarried and in 1946 was convicted of slaying to death his second wife.

Julian was returned to prison when he was declared delinquent by a parole board.

## LASKI RETURNS

LONDON, (Reuters)—Prof. Harold J. Laski, former chairman of the British Labor party's executive committee Thursday told reporters on his arrival from Russia with a Labor party delegation he had had an interesting time.

Another member Alice Bacon, said she met Premier Stalin, who gave her his autograph.

Sunday and holiday automobile driving bans were banned in the Netherlands.

## THE FLYING WING, DREAM OF DESIGNERS, NOW A REALITY

Copyright, 1946, by Acme Newspictures, Inc.

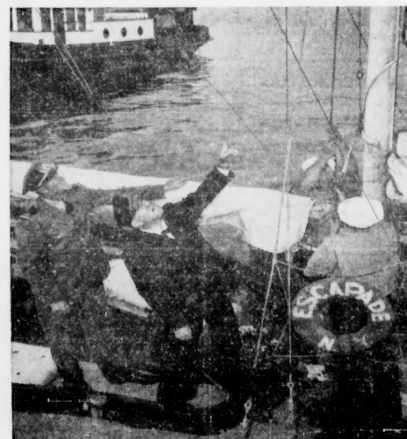

## ARMY CONTEMPLATES 'BLUES' FOR GI WINTER UNIFORM

**REUNION IN YOKOHAMA**—Staff Sergeant D. W. Jenkins, 65, of Los Angeles, greets his wife, Manietta, upon her arrival in Yokohama. The veteran of both world wars had not seen his wife for four years.

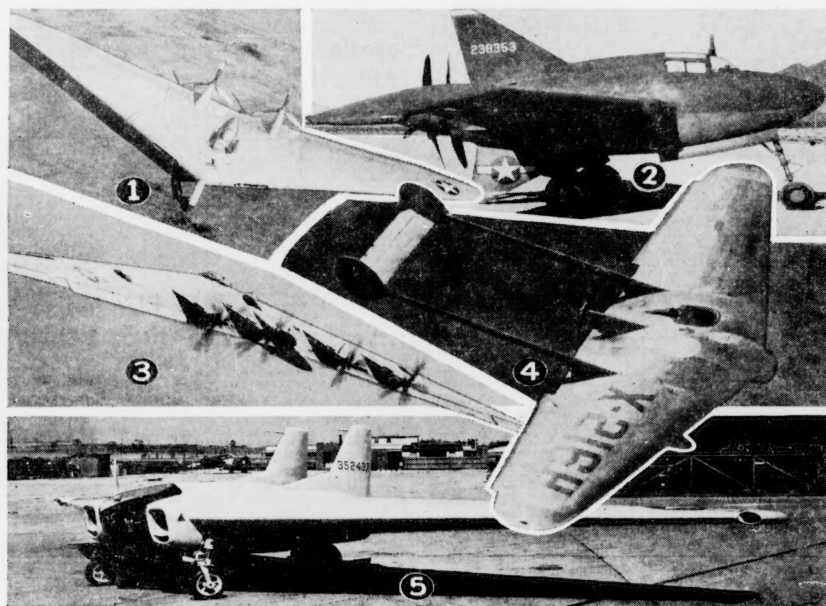

**"WHERE'S MY PRIZE?"**—Little Patricia Ann Rhoda, two, right, cries after winning Baby Beauty Contest in Chicago Park, Ill. She is consoled by Marilyn Kimbel, three, winner of the "senior" class.

**A COUPLE OF ENSIGNS TALK IT OVER**—With only two weeks to learn the ways of the sea for his role in "Two Years Before the Mast," Bill Bendix, Paramount star, gets a few pointers from Ensign L. E. Garrison at Maritime Training Station, Sheephead Bay, New York. Star wears early uniform.

**SNOW-MEN IN AUGUST**—These young sculptors at the Sloane Center in New York City have chosen as their subjects in clay, products of more frigid temperatures. The cooling effect is only make-believe for Joseph Folender, eight, left, and Lawrence Wozniak, nine.

**EVOLUTION OF THE FLYING WING**—For decades "clean" flying airplanes virtually void of fuselage have been the dream of designers. Today the flying wing, (3), is a reality. This giant Northrup XB-35 bomber is the first of a fleet of such planes now under construction at Northrup Aircraft in Hawthorne, Calif. Earliest of this type was built in 1929, (4). Tail surface was mounted on small tubular booms, but the pilot, fuel load, landing gear and crew were all enclosed in the wing. Built early in the war but never used in combat was the XP-56, (2).

An experimental fighter plane of all-welded, all-magnesium design, it provided much valuable research for the ultimate flying wing. It was driven by pusher propellers. The XP-79, (5), was the first of the type to be powered by jets. It hit top speeds approaching that of sound, and its leading edge was heavily armored. The first true flying wing was the N1M, (1), and its performance helped interest Army Air Force leaders in this type aircraft as a military plane. All of the models shown were built by Northrup Aircraft, Inc., and each played its part in the development of the "bat bomber."

**INFORMER**—Lina Basquette's grin may be heralding a new investigation. She arrived in New York City from Hollywood where she wrote an allegedly scathing expose of Movieland called "Virtue Takes a Holiday."

**MILK IS MILK**—After their mother had weaned these pigs and forced them to shift for themselves, they transferred their affections to the neighboring cow. There seems to be no complaints from their new mother. Trio belongs to Ernest S. Long of Shelby County, Tennessee.

**WHAT A VOICE!** Alexis Smith, lovely Warner Bros. star, was chosen by technicians as having the easiest voice to record in Hollywood. Miss Smith is currently appearing in "Night and Day."

**ARMY "BLUES"**—The Army is deciding on a new winter uniform. These of plain dark blue, with yellow chevrons, gold braid on cap, and one gold stripe are the choice to date of the men out of six designs submitted.

**TELEPHONE GIRL**—This isn't what the telephone operator is wearing this year but Paramount starlet Mary Edwards strikes this pose on set of "Golden Slippers." Formerly appearing on stage and radio, this is her screen debut.

**PIONEER MILLIONAIRE WEDS**—John V. Apablasa, 71, multi-millionaire descendant of one of the founders of California, poses in El Paso, Tex., with his smiling bride-to-be, Julie Ann Grant, 29, an ex-X-ray technician, of Los Angeles.

# Dodgers Up Two Games Over Cards

## Over Cards

NEW YORK, Aug. 16 (AP) — Brooklyn Dodgers now hold a two-game margin over St. Louis Cardinals in the hot National League race after they trimmed New York Giants, 7-1 yesterday to sweep the four-game series from the Polo Grounds crew, while the Cardinals were rained out.

Cardinals were slated to play host to Pittsburgh's Pirates in

night game, but the postponement left the Brooks with their increased margin intact.

Kirby Higbe set the Giants down on three blows but had to be lifted in favor of Art Herring in the ninth. He allowed two runs in the ninth when they banged starting pitcher Dave Koslo for four runs. Dixie Walker and Eddie Miksis singled in two runs apiece during the frame.

**THE GIANTS SCORED** their lone run in the eighth when Higbe walked four men in a row. Art Herring walked the first two Giants in the ninth. Herring gave an

## Blindness Can't Stop This Veteran's Golf

**THE GIANTS SCORED** their lone run in the eighth when Higbe walked four men in a row. After Higbe walked the first two Giants in the ninth, Herring came in and halted the New Yorkers.

Catcher Bruce Edwards of the Dodgers tied a major league record when he made three assists in the fourth inning. Three American League backstops including Bill Dickey of the New York Yankees, previously shared the mark.

The Yankees reduced Boston's lead to 12 games by taking both ends of a twin bill from Washington.

ton, 6-1 and 7-2 while the Red Sox were losing 5-3 to the tail-end Philadelphia Athletics.

New York	000	000	010—1	3
Brooklyn	004	101	10x—7	8

Koslo, Abernathy, Kraus and Cooper; Higbe, Herring and Edwards.

## Moose Secure Playoff Berth

"Out on the fairway there is an element of freedom that is hard to find anywhere else. There are no

## Famed South Coast Resorts See Rush British Tourists

By Frank Swanson  
BRIGHTON, Sussex, — Britain's world famed south coast holiday resorts, which during the early war years constituted the nation's sole defensive barrier to invasion, are undergoing a new postwar invasion. Millions of holidaymakers have taken over the beaches where, a few months ago, deadly mines and barbed wire entanglements lay forbiddingly. Hotels, which were once pill-box strong points for Canadian troops before being converted back to their normal function of catering for the vacationist. Despite the fact that the dead hand of requisitioning has not yet been fully lifted from this holidaymaker's playground, crowds in many cases have exceeded those of prewar years.

Hundreds of thousands of dollars have been spent during the past twelve months in repairing bomb damage to resorts all the way from the mouth of the Thames to the southernmost point of England. Working under extreme conditions of difficulty in obtaining materials and government permission to make repairs, promoters have made great

headway in restoring the "British Riviera" to prewar normality.

**Open Brighton Piers**  
Here at Brighton, the two huge piers which jut out into the Channel were opened in the early part of the season and by the middle of July had attracted more than 1,000,000 pleasure seekers, probably will exceed the 5,000,000 mark before the season officially closes late in September. The immense Grand and Metro-pole hotels were scheduled to open for the first time since 1939 later in the season after being used as main-tening depots for Australian and New Zealand air force personnel during most of the war years. Cost of their reconstruction and refurbishing alone will run close to \$1,000,000. Other hotels have "sold out" almost prominently displayed and bookings extend well into the fall. The beaches are black with hundreds of thousands of sun-baked vacationists daily and at week-end congestion in the town is described as unprecedented.

**Busy At Margate**  
Much-bombed Margate, with 67 percent of its accommodation restored, is doing a land office business. Tank landing operations and thousands of yards of barbed wire have been removed from the front where today sun-baked Britons lie basking in the brilliant sunshine.

At historic Hastings, 90 percent of prewar accommodation has been turned back to private use. Although some of the huge luxury hotels near the sea front are still in the hands of the admiralty and war office. White sails dot the blue of the Channel where Hitler's invasion barges might well have come ashore.

Ramsgate has spent half a million dollars on "tidying up" where requisitioning and neglect wrought great havoc. The sea front has been cleared and painters are busy applying bright new coats to chipped and shabby hotels, boarding houses and private dwellings.

**Colorful Trends**  
All along the south coast, colorful bathing tents dot the shoreline as far as the eye can see, and it is scarcely possible to find an isolated part of the beach where holiday-stayed Britons aren't making the most of this second summer of peace, their first holiday under anything approaching normal conditions since the summer of 1939.

Right the way down through Bournemouth, along the Devonshire coast to Torquay, and around to quaint Cornwall fishing villages, the story is the same—the holiday invasion has rolled into high gear and Mr. and Mrs. Average Citizen are out to enjoy themselves.

Venezuela, bidding for United States portland cement, as are several other South American countries, has continued its duty-free importation until next August.

**KELLOGG'S  
ASTHMA  
RELIEF**  
FOR ASTHMA  
& HAY FEVER

The monarchy came to nothing and Franco has taken on new strength, profiting at last from the hope of his patron Hitler, that the democracies would end fearing Russia more than they feared France.

When this exotic vehicle was first brought to Calcutta the pull-ers and owners were entirely Chinese. Indians were reluctant until 1915 to pull rickshaws, the novelty of which brought the scorn and jeers of the crowd, who shouted: "Baghair dum ka ghora!" ("Horse without a tail"). But its very economy, and its suitability in the narrow streets of crowded cities or the ups and downs of hill stations, gradually brought its popularity.

The earnings of Indian rickshaw coolies vary from \$10 to \$15 per month. In cities of the plains such as Madras and Calcutta the rickshaw is pulled by one coolie only, but in the hills it has four pull-ers. A striking feature of life in Simla, summer headquarters of the government of India, is the colorful garb of privately-hired rickshaw coolies.

Lord Tedder, marshal of the Royal Air Force and chief of air staff, beams proudly at his infant son, Richard, as Lady Tedder looks on. They posed for this first portrait at their home recently. Tedder nicknamed the baby "Widgey," meaning a baby gremlin.

**Tacit U.S.-British Aid Policy Said Aiding Franco's Regime**

TOULOUSE, France, (Nana) — Who or what does Gen. Francisco Franco fear so deeply that he is willing to add billions in armaments, at a time when the whole world is exhausted by war, to the burdens of the near-bankrupt Spanish people? The answer seems to be that until about six months ago, Spain's ruling minority genuinely feared that exiled republicans, aided and armed by French Maquis, would attempt to sweep the Francoists and tourist dollars from the throne.

At home, this group expected also that the Anglo-American alliance would give the republicans the tacit encouragement of a hands-off policy, and would leave a final settlement to the Spaniards.

Since then, French support of the republicans has been checked by the caution of Anglo-American policy and Franco has been happily surprised by the course of events before the United Nations security council, which seems to have guaranteed him indefinite support from the United States and Britain.

**Power Waned**  
Six months ago even Franco seemed ready to admit that his power had waned, and was considering handing over the government to one of the late King Alfonso's sons, hand-picked by the church with quiet British approval. There apparently was more sentiment in favor of this change than foreign observers thought at the time. The republicans favored it because they wanted an alternative to Franco and because the prospective king announced his willingness to test his position with a plebiscite. The republicans were confident that this would show an overwhelming majority in their favor, and that the king would then be forced to step peacefully from the scene.

Lord Tedder, marshal of the Royal Air Force and chief of air staff, beams proudly at his infant son, Richard, as Lady Tedder looks on. They posed for this first portrait at their home recently. Tedder nicknamed the baby "Widgey," meaning a baby gremlin.

## Tacit U.S.-British Aid Policy Said Aiding Franco's Regime

There are no elections in Spain. The jails are crowded with people whose crime is a dislike of their government. Breaches of the civil war are supposed to be healing and there has been much publicity about the amnesties which freed the more than 200,000 political prisoners still detained at the end of 1940. But an incomplete count, covering only the major prisons of Madrid, Barcelona, Malaga and Valencia, gives an approximate 137,000 still imprisoned.

French security police estimate the number of republican refugees living alone in the Pyrenean area at about 150,000, with another 100,000 scattered in smaller groups throughout France. Then there are resistance groups throughout Spain, estimated by three in touch with them to comprise about 230,000 active members.

These resistance groups maintain an intelligence service, providing material for a tri-weekly press bulletin issued in London with respect for an efficiency and diligence not often found in reports which must be smuggled across borders at a risk of imprisonment and death.

**Prices, Rationing**  
They deal with such subjects as food prices and rationing breakdowns in various towns and villages; the quantity and quality of public aid available to pensioners and the aged; the changes in prison populations, the appointment of judges, the visits of "American capitalists" and a variety of other topics. The service compiled an exhaustive account of border fortifications and army increases; village by village and karrier by karrier, which checks at every major point with reports compiled independently by the French.

But the mass of the Spanish people are exhausted and beat. The wealthy minority in Spain today eats and lives more luxuriously than almost anywhere in Europe.

**When this exotic vehicle was first brought to Calcutta the pull-ers and owners were entirely Chinese. Indians were reluctant until 1915 to pull rickshaws, the novelty of which brought the scorn and jeers of the crowd, who shouted: "Baghair dum ka ghora!" ("Horse without a tail"). But its very economy, and its suitability in the narrow streets of crowded cities or the ups and downs of hill stations, gradually brought its popularity.**

**The earnings of Indian rickshaw coolies vary from \$10 to \$15 per month. In cities of the plains such as Madras and Calcutta the rickshaw is pulled by one coolie only, but in the hills it has four pull-ers. A striking feature of life in Simla, summer headquarters of the government of India, is the colorful garb of privately-hired rickshaw coolies.**

**The ship, purchased recently by the Dominion Foundries and Steel company from War Assets Corporation, is being torn down and their steel plates melted and re-rolled for peacetime use. High speed automatic machines are turning the former corvettes into sanitary metal containers at the rate of 20,000 an hour on each manufacturing line.**

**In their steel hulls and deck plates, according to the American Can company, which turns out millions of food cans each year, there is material for enough cans to provide food for a city the size of Three Rivers, Quebec, or Victoria, B.C. for a year. It is estimated the corvettes contain enough metal for 62,000,000 cans, enough to provide 42,000 persons with one can of milk meat, fruit and vegetables each and every day for a year. Laid end to end, the cans would form, literally, a pipeline of food 4,500 miles long, a distance almost from Halifax to Greece.**

**The ships are being dismantled in Hamilton bay after having been moved up the St. Lawrence river, and through Lake Ontario. First to be torn down is H.M.C.S. Brandon, whose first war record included many thrilling encounters in the Atlantic. Others awaiting salvage are H.M.C.S. Forest Hill, Gladiolus, Chisholm, Quesset, Dawson and Valcour.**

**Spain faces a food crisis.**

## 15,000 Seek Jobs Tobacco Harvest

DELHI, Ont., (CP)—Throughout the rolling tobacco planted across southwestern Ontario, Norfolk county and on a goodly ground beyond the county line, the harvest of a 90,000,000 pound tobacco crop moved in full stride Friday.

This was the best time—the picking, the tying, the priming, the curing.

The end comes with the auctioneer's shouted, "Sold Canadian."

For Ontario's tobacco farmers, men who have turned what once was regarded as a fairly barren land fit only for pasture into rich farm country, this crop means some \$20,000,000 at 1946 prices.

For tobacco harvesters it meant wages for hard, fast work lasting two to three weeks—a short season because the leaves must be gathered quick and properly housed when in their prime. It meant jobs for 15,000. It meant disappointment for an estimated 5,000 more workers who swarmed into the district and found the work not sufficient for their numbers.

Tobacco belt towns have never seen such an influx as this year. Delhi, Simcoe and Tillamook were swarmed with wandering workers. They slept in bars and "joints" and those who had money filled all available accommodation. Grocery stores were besieged.

Finally thousands of them realized the tobacco harvest this year was not for them. They left—most of them broke.

## Australia Drought Hurts Grain, Sheep

SYDNEY, Australia, (CP)—A severe drought in two Australian states threatens wheat crops scheduled for harvest in December and January and has killed more than 2,000,000 sheep.

The drought belt extends many thousands of miles from central New South Wales, the country's greatest wheat-producing state, north into Queensland where thousands of sheep are dying and bush fires are springing up over wide areas.

More than half of Australia's 10,000,000 sheep graze in New South Wales or Queensland. The situation is grave because it is lambing time and it is impossible to move ewes or feed new-born lambs.

Droughts have gripped the country in the last few years, reducing sheep flocks by 15,000,000 since 1932 and the wool clip from 4,000,000 to 3,000,000 bales since 1942.

## Doom Rickshaw For Indian Use

NEW DELHI, (CP)—The rickshaw, picturesque Oriental vehicle of song and legend, is doomed.

In the first half of this century, being hammered in India, where a law of the government committee has described "this type of labor" as "a degradation to human personality" in a story-worded report, the committee stresses that the ultimate aim should be "to abolish the form of conveyance as it is an offence against human dignity."

First instituted by the British, the French East India company at the close of the last century, the rickshaw is a cheap, common means of locomotion, and became increasingly popular during the war with the rise in the price of horses and carts and gasoline rationing.

When this exotic vehicle was first brought to Calcutta the pull-ers and owners were entirely Chinese. Indians were reluctant until 1915 to pull rickshaws, the novelty of which brought the scorn and jeers of the crowd, who shouted: "Baghair dum ka ghora!" ("Horse without a tail"). But its very economy, and its suitability in the narrow streets of crowded cities or the ups and downs of hill stations, gradually brought its popularity.

The earnings of Indian rickshaw coolies vary from \$10 to \$15 per month. In cities of the plains such as Madras and Calcutta the rickshaw is pulled by one coolie only, but in the hills it has four pull-ers. A striking feature of life in Simla, summer headquarters of the government of India, is the colorful garb of privately-hired rickshaw coolies.

## Melt Corvettes For Containers

HAMILTON, (CP)—Veterans of Canadian corvettes will soon head back over the ocean waters, their old often provided in search of enemy submarines.

But, as they depart on this last voyage, these ships of the Canadian navy will no longer be recognizable as corvettes. They will be bound for Europe as "tin cans"—metal containers packed with life-saving foods for starving millions.

The ships, purchased recently by the Dominion Foundries and Steel company from War Assets Corporation, are being torn down and their steel plates melted and re-rolled for peacetime use. High speed automatic machines are turning the former corvettes into sanitary metal containers at the rate of 20,000 an hour on each manufacturing line.

In their steel hulls and deck plates, according to the American Can company, which turns out millions of food cans each year, there is material for enough cans to provide food for a city the size of Three Rivers, Quebec, or Victoria, B.C. for a year. It is estimated the corvettes contain enough metal for 62,000,000 cans, enough to provide 42,000 persons with one can of milk meat, fruit and vegetables each and every day for a year. Laid end to end, the cans would form, literally, a pipeline of food 4,500 miles long, a distance almost from Halifax to Greece.

The ships are being dismantled in Hamilton bay after having been moved up the St. Lawrence river, and through Lake Ontario. First to be torn down is H.M.C.S. Brandon, whose first war record included many thrilling encounters in the Atlantic. Others awaiting salvage are H.M.C.S. Forest Hill, Gladiolus, Chisholm, Quesset, Dawson and Valcour.

Spain faces a food crisis.

## Reach No Decision On School Tenders

Tenders for the construction of the proposed composite high school submitted by four contracting companies Thursday were referred to the finance committee of the Edmonton school board, when members in regular meeting were unable to arrive at a recommendation of any tender.

THREE COMPANIES, bid outright, each at more than \$550,000 while one submitted the tender on a cost-plus basis of \$25,000 and over \$600,000 for their unguaranteed estimate of building cost. The latter firm bid also on construction work for Mill Creek and Virginia Park schools, each at \$7,000, with \$81,000 their estimate on total cost of building each school.

The matter of removal of the Muslim Mosque to accommodate building of the composite high school was again before the board and was this time referred to the finance committee. Of three propositions involving compensation for the proposed removal the board favored the third which would mean a cash settlement of \$13,000 including material out of the old Mosque with the responsibility of erecting the new Mosque to be that of the Muslims. The board, however, declared no recommendation on the subject.

IN AN ENDEAVOR to relieve anticipated crowding of grade 1 students at Highlands and Rutherford schools, a plan submitted by Superintendent R. S. Sheppard was adopted. It will involve double shifts and the opening of one room in the basement of each building.

Adby Construction Company Ltd. with a tender of \$471,171 received approval of the board for the regrading, leveling and general improvement of the Eastwood school grounds. It was observed that the grounds of most schools of the city were in need of renovation but the proposal to finish one school at the time advanced by Trustee James MacDonald was supported by Trustee Mrs. E. S. Haynes, and J. M. Stolen.

McAfee, board power plant superintendent, and the following discussion resulted in unanimity of the board.

THREE RESIGNATIONS from the teaching staff were accepted and three leaves of absence were granted.

On recommendation of Mr. Sheppard eight persons' applications were approved for positions on the school board. Acting-Chairman George Cormie was appointed chairman of the committee representing the school board which jointly with the Separate School Board will be host to the city attending the Canada-Northern Education Association convention Monday and Tuesday.

The two school boards will welcome the trustees at a function to be held Monday at 12:30 p. m. at the University.

## Withdraw Charges In Robbery Case

Charges of shopbreaking in connection with the Brown Fruit Company robbery against Robert McGrath, Kenneth W. Myers, Ralph D. Ross and Muriel Birch were withdrawn when they appeared before Magistrate A. I. Miller K.C., Friday. The crown withdrew the charges on the grounds that there was not enough evidence to proceed.

ROBERT MCGRATH, Kenneth Myers and Ralph Ross are still charged with shopbreaking at the Imperial Oil Company premises last Monday, and bail was set Friday at \$5,000 each. They were put out on \$2,000 bail when they were charged with having entered the oil company premises.

The Brown Fruit Company was entered last July by way of this time advanced by Trustee James MacDonald was supported by Trustee Mrs. E. S. Haynes, and J. M. Stolen.

## It's Bicycle-Time For Edmonton Girls

BY DOROTHY HOWEY  
Summertime is bicycle-time for Edmonton girls. It may not be a brand new one or it may be brother Bill's discarded machine—but it's a welcome addition to any teenage girl's paraphernalia these days. Blue denim jeans, flat-soled hurachas, and a sloppy jersey or slacks and sweater or even an attractive pedal-pusher costume and Mary is away for the day.

BICYCLE LICENSES purchased since Jan. 1 total more than 12,324, according to R.J. Foster of the license department at the Civic Block, who remarked "at least one third of those are for girls."

Even with bicycles hard to get, they are still the most popular sport today. 4,000 Edmonton girls have shown by taking out licenses.

"The demand for bicycles has increased at least 100 per cent since before the war," said T. Wormbecker, owner and manager of a cycle shop on 103rd street. "Steel strikes and shortages have caused delay in return-to-normal supply."

HE FINDS IT HARD to meet the demand for cycles. "Last month we had 50 or 60 bicycles which were all snapped up in a few days after their arrival," he said. He never knows how many he will get or when.

Business girls find bicycles handy and penny-saving on limited budgets. The parade down town every day of business girls on their way to work, testifies to the popularity of cycles. Housekeepers use them, too. Shopkeepers claim, for transportation of groceries from home. Many a housewife loads the wire basket high with celery, lined goods, vegetables and fruit and heads gaily off for home. Off-timings, a gaily goes along for the ride—in the basket of course.

HIKING, GOLFING, shopping riding to and from school or work—or to the park for a picnic or swim, the bicycle has come into its own. All enthusiasts are agreed that every bicycle ride is a pleasure ride, and that once a bicyclist always a bicyclist.

"I've ridden for six years," said Audrey Anderson, of 11050 87 avenue, "and love it." Audrey rides to school—over town on errands and to the library for books. "It's much easier than walking," she laughed, "and I'm lazy."

Short distances are preferred, thinks Sheila McGugan who prefers as cycling loads, green plaid slacks and white shirt with a bottle green jacket. "It's nice to know you have a means of getting places in a hurry," she said. "Riding to the park for a swim, it's wonderful to have a bike to look after the transportation problem."

BICYCLE HIKEs are popular with the young bicycle-riding set. Short-distance hikes to Black and White Mud creeks with baskets piled high with lunches are fun says Peggy Cross of 11050 87 avenue. Together or solo, bicycle-minded girls are happiest when riding. And whether Dad shakes his head and says, "Now daughter, this traffic, you know," the bicycle for Edmonton girls is here to stay.

Photo by William Kenait.

POPULAR SUMMER SPORT: As a summer sport, cycling is hard to beat according to Peggy Cross, daughter of Mr. and Mrs. C.A. Cross, 11054 87 avenue, Sheila McGugan, daughter of Dr. and Mrs. A.C. McGugan, 8324 111 street and Audrey Anderson, daughter of Mr. and Mrs. Charles Anderson, 11050 90 avenue. They are shown above starting on an afternoon outing.

## See Little Danger Of Undulant Fever

Undulant fever, produced chiefly through consumption of unpasteurized milk and originating mainly from dairy cows infected with Bang's disease, is not likely to affect citizens of Edmonton and Northern Alberta inasmuch as herds are virtually free of such cases and milk through all legitimate channels is pasteurized, it was learned Thursday when provincial health authorities.

DR. P.R. TALBOT, provincial veterinary surgeon, outlined a program of preventive vaccination on calves was being carried out in herds of the province, and that vaccination provided almost lifelong immunization of the animals against the disease. The question arose following reports that 11 persons had become infected with undulant fever at Calgary, and that health authorities of that city were now engaged in tracing down possible suppliers of unpasteurized milk. IN A PREVIOUS statement, Dr. M.R. Bow, deputy minister of health, said that undulant fever was not transmissible from human to human, but was contracted chiefly from drinking of unpasteurized milk.

Although rare in Alberta the disease is also known to have infected swine, which are in the handling of infected cattle, could be transmitted to humans.

## 154 Persons List Needs for Cement

Up to noon Thursday 154 persons had listed cement requirements for homes under construction, with the city building inspector's office, Commissioner D. B. Menzies stated. It was announced that registration of requirements for cement would continue for the balance of the week. Following completion of registration the city commissioners will confer with cement dealers with a view of diversifying as much cement as possible for construction of homes.

## Report Yellowknife Area Gold Finds

D. A. Campbell, managing director of Gateway Gold Ltd., on his return from Yellowknife, states that he is very pleased with the present progress of the field crews. These twelve experienced prospectors and miners have been able to make four promising discoveries in the Yellowknife area.

ON THE KAY CLAIMS in the Beaulieu river area a strong vein has been traced for 1,000 feet. An interesting gold deposit was recently found on Andy Island in Marion Lake. There are six small veins up to eight inches wide showing some visible gold and cutting an older diorite adjacent to the main granite contact.

A NEW FIND has been made at Camell Lake where gold has been found in closely spaced quartz veins in a fine grained quartz porphyry dyke. A promising ore zone in which three rich veins are exposed has been found at North Gordon Lake. This zone is partially obscured by low ground and has yielded channel samples up to 2.5 ounces over widths from one to three feet.

## 4 Edmonton Men Land in Canada

Four Edmonton men and one from the Northern Alberta district arrived with RCAF personnel aboard the Aquilans which docked in Halifax Thursday. They will be released at Halifax immediately after disembarking and may proceed directly to their homes. Those scheduled to arrive here are: Cpl. G. S. Bevington, 10818 124 street; P.S. A. Elund, Burdett; Sgt. W. Humble, 8708 92A avenue; FS. J. Kennedy, 10972 122 street; Cpl. T. W. Thompson, 9520 98 avenue.

Bank clearings through the Edmonton Clearing House for the week ended Aug. 13 amounted to \$1,900,252.03. Clearings for the corresponding week of last year amounted to \$7,820,676.10.

## Kiwanians Plan Attend Convention

The Edmonton Kiwanis Club will be represented by 14 members at the 1946 convention of the Western Canada Kiwanis district to be held in Winnipeg Aug. 18, 19 and 20. It is announced today by L. G. Pugsley who added that the party will leave Friday by CNR for Winnipeg.

THE EDMONTON PARTY will be joined by three members of the Westaskin club. W. G. Strachan, of Edmonton, governor of the Western Canada Kiwanis district will preside at the sessions. E. F. McGahey is secretary.

Between 400 and 500 delegates are expected to attend. Election of officers and presentation of the 1947 objectives of the club will highlight the business.

Alex M. MacDonald will be speaker and R. M. "Dint" Moore, president of the Edmonton club, will preside at a luncheon in the Royal Alexandra hotel Aug. 19 when members of the Edmonton club will be in charge of arrangements.

Members and their wives will be entertained at a governor's ball and reception during the convention.

W. G. STRACHAN

Strachan is leaving on Aug. 24 for Eastern Canada and the United States to carry out special studies of tuberculosis. He will spend some time at Saranac Lake, N.Y., under provisions of a scholarship provided by the Canadian Tuberculosis Association and later will visit New York City to make a study of chest diseases at Bellevue hospital.

## Will Make Study Of Tuberculosis

Dr. G. R. Davidson, director of the tuberculosis clinic sponsored jointly by the provincial government and the Alberta Tuberculosis Association.

## Meeting Approves Brief on Highway

James A. Christensen, chairman of the Edmonton Chamber of Commerce, reported at a meeting of the council Wednesday, regarding a prepared resolution presented to the senate tourist committee on Aug. 8. The resolution and brief, outlining the objects of the committee were received with enthusiasm, he said.

DURING THE MEETING, Alan Bell, assistant to the president of the University of Alberta, was appointed to the chamber council. C. C. Becker was appointed to represent the Chamber at the International Sunshine Air Association meeting in Denver, Col. Aug. 24, 25 and 26.

To represent the Edmonton chamber at the annual meeting of all chambers of commerce in the Dominion, in Winnipeg Oct. 8, 9 and 10, the following were appointed: C. D. Jacob, president of the Edmonton chamber, C. E. Garnett, A. L. Burrows and A. M. MacDonald.

## Crop Conditions Good Around City

Crop reports issued today by the agricultural departments of the Canadian National and the Canadian Pacific Railways, on crop conditions in the Edmonton area indicate that prospects are good in this area, having improved during the last week due to good rains and warm weather.

OVER THE LARGER part of the area present outlook is for a better than average crop. Harvesting will not be general for another 10 days.

In Northern Alberta cutting should be general by Aug. 21, in the area south of McLennan to Edmonton the crop is in a splendid condition and ripening rapidly. Some slight hail damage is reported from the Westlock and Barrhead districts.

CUTTING is underway in many parts of southern Alberta, with about 33 per cent completed, and 17 per cent and barley 33 per cent complete.

## Leduc Old-Timer Dies; 51 Years Old

Old-timer in the Leduc and Tedfordville district, Phillip Albrecht, died Wednesday in an Edmonton hospital. He was 51 years old. He was born in South Edmonton and was farmed in the Leduc and Tedfordville area all his life.

He is survived by his wife, three daughters, Gertrude, Doris and Agnes Albrecht, and two sons, Herbert and Walter Albrecht. His father, and by his father, John Albrecht who lives in Manitoba; and by three sisters Mrs. B. B. Richardson, Mrs. Reinhold Albrecht, Penicton and Mrs. Paul Haunemann, Anderson.

A funeral service will be held Saturday at 2 p. m. at the family residence and another at 3 p. m. at the Pemberton Hill Lutheran church with the Rev. Fred Knebel officiating. Burial will take place in Pemberton Hill. Hainstock and Son, chapel are in charge of arrangements.

## Gyro Carnival

August 19 to 24  
To assist the work of the War Services Council of Northern Alberta and at the same time to provide funds for the support of the club's objectives—playgrounds and scholarships for Edmonton children—the Gyro club of Edmonton is sponsoring a carnival in the Hudson's Bay Company store parking lot, 102 street, from August 19 to August 24. E. T. Richardson, manager of the carnival; J. P. Barberie, merchandise manager and Jack Cranston and James G. Dugan are treasurers. D. H. C. Wright is representing the war services interests on the management committee of the carnival.

## Swifts' Employees Will hold Picnic

After a lapse of five years due to war conditions, the employees of Swift Canadian Co. of Edmonton will hold their picnic at Victoria Park, Saturday commencing at 2:30 p. m. when it is expected about 2,000 persons will be in attendance. The last picnic in August 1940 drew an attendance of 2,000 employees and their families. F. C. Wells, is chairman of the picnic committee and a varied program of sports and games will be arranged for the day. Sports events will commence at 3 p. m.

## Man Slightly Hurt When Hit by Bus

Minor injuries were suffered by Ned Chisholm, 12924 121 street, when he was struck by a trolley bus at the intersection of Jasper avenue and 100A street at about 11:45 p. m. Thursday. Witnesses state that the bus was travelling at a fairly slow rate of speed, and the driver sounded the horn and swerved as far to the left as possible to avoid the man who was struck with the front right corner of the bus. Chisholm was taken to the Royal Alexandra hospital by a Jack Hays ambulance and was found to be suffering from cuts and shock.

## Tools Missing

Three sets of carpenter's tools have been reported stolen from a tool shed at the rear of a house under construction at 10714 68 avenue. Owners of the tools are Gunnar and Gordon Vein, 11822 47 street, and A. F. B. Smith, 12009 38 street. The men reported that when they returned to work on Thursday morning the door and window of the tool shed were open. They had been locked the night before.

## Streamlining Program Given For Post-Pregnancy Period

By Ida Jean Kain

Susan Hayward as one of Hollywood's most perfect figures, and twin sons a year old. And she was back playing glamour girl roles long before Tim and Gregory could say Mamma. So here's the answer to the young mothers who write to ask wistfully if their figures are as good as Susan's.

Susan is such a beautiful proof of what regular exercise can do for a girl's figure. Her muscles were in such excellent tone before the twins were born that the doctor wasn't sure until a week before that there would be twins. That is not just a publicity story. Out of Hollywood some of the exercise pictures are merely pretty poses. But not Susan's. When I was there some time ago having exercise pictures made, naturally I wanted a girl with a home of a figure for my model, and stipulated that the actress be one who really did calisthenics. There was no doubt in my mind that Susan Hayward looked like a champion. I explained a certain waist-whittier man would like to see her. Susan would exercise the way she usually did.

So that is the first secret girls keep your muscles in good tone. This does not mean to take exercise during pregnancy. Never take a single exercise unless it is recommended by your own doctor. But busy right after the baby arrives and exercise to restore the tone to the stretched, flabby muscles, otherwise the lengthened muscles will tend to slack on fat and your figure will spread.

Susan's measurements were 25", waist 24", hips 35". They are about 26", 24", 36", hips 34". But Susan works at keeping trim. Each morning she goes through a routine which she claims keeps the stomach muscles as hard as an ironing board, and about as flat. Here it is.

Lie flat on back on the floor, elbows bent, hands back of head, and keeping heels on the floor, come up to a sitting position. Her waist is about 25 to 30 times, but never less than 10. But that is not a waste of exercise to start with three. To make it easier, stretch arms up overhead, and perhaps you'd better anchor your feet too.

Then to put the squeeze on the waist muscles, add Susan's twist. After you come up to sitting position, arms back of head, abdominal muscles pulled up, twist at the waist and bend to touch right elbow to right knee, then reverse. When that is easy, really twist and touch right elbow to left knee. That really brings the waistline to terms. Susan never diets, but normally her weight does not vary more than three pounds, because she never overeats. The trick is to watch candy, pastries and starchy foods, but have plenty of vegetables, fruits, lean meat and milk, says Susan.

To see for yourself what good food habits and regular exercise can do, go see Susan Hayward in the movies. And when you watch her on the silver screen, remember she has twin sons. To real life she is Mrs. Jess Barker.

Edson Couple Wed at Jasper

JASPER.—The Little White Church in the Rockies was the scene of a wedding recently when Miss Margaret Kristerman, only daughter of Mr. and Mrs. A. J. Kristerman of Edson, became the bride of Dr. Gordon Oliver Patton, son of Mr. and Mrs. P. Patton of Calgary. Rev. H. M. Wingfield officiated at the ceremony.

The bride, who was given in marriage by her father, wore a pale pink dressmaker suit with white accessories. She carried a bouquet of roses.

Mr. and Mrs. E. H. Huestis of Edmonton, formerly of Edson, attended the bride and groom.

A wedding supper for 41 guests was held at the Pyramid Pines Chalet. The bride's mother, Mrs. Knechtel, chose a navy blue suit for the wedding. Her accessories were in blue and she wore a corsage of Tallian roses. Mrs. Patton, mother of the groom, was frocked in black with accessories to suit. Her corsage was of Tallian roses.

Mr. and Mrs. Patton left on a honeymoon trip to Banff and Calgary. They will reside in Edson.

Hazel M. Dunlop Bride at Edson

EDSON.—At the United Church here Monday afternoon, Rev. H. M. Wingfield solemnized the marriage of Miss Hazel Mae Dunlop, daughter of Mr. and Mrs. Lloyd Wood Evans of Chip Lake.

The bride wore a floor-length white gown and carried a bouquet of roses. She was given in marriage by Mr. S. A. Raby.

Miss Winnifred Dunlop of MacKay was bridesmaid. She was gowned in white and carried a bouquet of roses.

Best man was Mr. John Brouse of Chip Lake.

The wedding music was played by Miss Hazel Crowell, and during the signing of the register Mrs. K. C. McLeod sang "All Joy Be Thine."

For the reception to 150 guests the table was laid in white and decorated with two tiered wedding cakes embedded in white tulle. Tiny baskets of flowers at either side of the cakes completed the arrangement.

Toast to the brides was proposed by Mr. McLeod.

Mrs. Barr, mother of the brides, wore a two-piece navy blue crepe ensemble with accessories to tone, and a corsage of red roses.

Mrs. Smith, wore for her son's wedding a pastel blue figure crepe dress with a black hat and accessories to tone, and Mrs. Crowell chose a green dressmaker suit with a wide-brimmed crown hat. Her accessories were in black.

Out-of-town guests were Mr. and Mrs. James Crowell, Marvin and Hazel, of Wadena; Mrs. Knowles, Unity, Sask.; Miss Millie Crowell, Vancouver; Miss Gladys Crowell, Saskatoon; Mr. Peter McLeod, Calgary; Mr. and Mrs. Harry Wood, N.B.; Mr. and Mrs. E. C. Smith, and children, Eleanor, Betty and Dale of Lloydminster.

Get \$200,000,000 Overpaid on Jobs

WASHINGTON, (CP).—Members of the senate war expenditures investigation committee would seem to have a lifetime job ahead of them if they follow up all the leads which some authorities declare point to needless squandering of "unbold billions" on war contracts.

So far the committee's one big effort has been in connection with the so-called "paper" munitions empire of the Garson family, but when this had reached its juiciest stage the committee paused the whole works over to the department of justice.

Now the controller-general of the treasury, Lindy C. Warren, told the committee that while his office was able to recover \$20,000,000 from overpaid war contractors, that was only a "drop in the bucket" of such overpayments.

During the turbulent early phases of the war, there was little thought of how much it cost to get the means necessary to salvation.

## LOOK! IT'S HERE! SAT. & MON.

EMU PROVES TOUGH BIRD  
Food shortages in Australia have brought up discussion of the relative toughness of kangaroo and emu meat. The emu is a tough old bird, all agree, and the only way to make its meat tasty is to grind it up, add seasoning and enough flour to bind the raw meat. Then make rissoles, baked in an oven. Served with onion gravy, the meat then tastes like mutton. Only young kangaroos should be selected for kangaroo tail soup or for steaks. It is agreed, as old kangaroos are "unbelievably tough."

## Bracken Fears Wheat Pact Will 'Blow Up' in 2 Years

OTTAWA, (CP)—John Bracken, Progressive Conservative leader, said Thursday in the commons he believed that Canada's four-year wheat agreement with Britain will "blow up" in "two years or more" when the British people find that they may be paying the dominion more than the world price for wheat.

In the sharpest criticism yet directed at the agreement in the commons, Mr. Bracken said that if in two years Canada attempted to charge Britain more than the world price for wheat, Britain would say the dominion was unreasonable.

Under the agreement Britain undertook to buy 600,000,000 bushels of wheat from Canada during the next four years at \$1.25 a bushel during the first two years of the contract and at not less than \$1.25 during the third and \$1 during the fourth year.

The Progressive Conservative party considered the agreement was "bad." Under it Canada agreed to sell wheat at below the world price. If the agreement provided for a gift to Britain the government should say so. If the agreement was not a "gift" then it was an "improvement" trade arrangement.

If the agreement was an assurance that if Canada took less than the world price now it would get more than the world price later, the assurance was a bad bargain which would create friction between Canada and Britain.

He wondered how Canada could hope to sell the balance of her wheat at world prices when Britain could turn cheap wheat from Canada into flour and sell it below world prices.

Mr. Bracken said the government had fixed the domestic price at \$1.25 a bushel for the next five years. This was not a parity price. The parity price now would be equal to about 25c. If farmers could not be given a parity price now when prices generally were high he wondered how farmers could hope for parity when prices were low.

Mr. Bracken contended that through the government's failure to support wheat in the commons, contribution to British war effort.

## Man Falls 85 Feet, Only Slightly Hurt

SUDBURY, (CP)—A 25-year-old steeplejack, George Petryna, fell 85 feet from the top of the bell of the Church of Christ the King and lived to tell about it. He was repairing and painting the twin steeples on the church when he lost his footing and crashed to the cement parapet below. Doctors said Petryna is known to have several bone fractures and may have suffered internal injuries.

Contribution of her farmers not of her people as a whole. He asked that "if the farmers' costs go up as they are likely to do up," the price paid them for their wheat be adjusted from year to year. If this were done "you'll have what all farmers want and what all reasonable people want—equity." It would also give the only guarantee of real income stability.

Agriculture Minister, Gardiner, arose to say, "I think it was fairly well admitted that prior to the increase in implements, prices and labor which have caused wheat to place, partly would probably be about \$1.11."

The situation had again changed materially through elevation of the Canadian dollar. A contract was selling at \$1.60 less than before which means that all adjustments made in this country will have to come down to it, he said.

Figure at \$1.41. "What we call parity, adjusted from day to day, would be a very difficult thing to apply to wheat and what we are assuming, of course is that for a four-year period parity will probably work out at what we figured it at during the last four or five years—\$1.41, rather than \$1.55—and it is on that basis that the discussion took place."

A true parity figure should be worked out over a four-year rather than a four-week or four-month period, he added. Speaking of the suggested increase, Mr. Gardiner said if Canada "under the floor price measure" we stated to the house that \$200,000,000 was being provided for the purchase of surplus wheat at a price of \$1.41 a bushel, with a clause for payment in wheat on account of \$1.41 a bushel, it would be a very good thing to do. At the same time, it would be a very good thing to do to have a clause in the contract that surplus wheat would be sold at the market price, rather than at the floor price.

CCP Leader Goldsworthy, referred to a clause in the agreement which would allow Britain to sell or otherwise dispose of the wheat. He hoped the clause was indication of a continuation of her recent step in giving thousands of tons of foodstuffs to hungry Europe.

He replied a true statement by Mr. Gardiner that such large-scale price-fixing government was not feasible and said he was glad to see this conversion.

The agreement was "a very important step" towards stability for the western farmer. In his recent trip west he had found that farmers generally took that view despite dissatisfaction with the initial price.

For Domestic Market. The guaranteed floor price for the next four years should not be applied to the grain sold in Canadian mills for use in the domestic market, he said.

What the farmers need is that the price of their products should be based on parity, that is first it should bear a direct relation to the cost of production on the farm.

Mr. Gardiner, who left later in the day for the World Food and Agriculture Organization meeting in Canberra, said he agreed with Mr. Goldsworthy that any British government would carry out the terms of the contract.

It was known that Britain imported 200,000,000 bushels of wheat annually. In view of this fact, he could not see Britain selling any of the 600,000,000 bushels a year from Canada simply to make money.

Mr. Gardiner said that if Canada had a wheat crop of 500,000,000 bushels, this would be a very good thing to do. He said that the world price of wheat would have dropped in the second year of the contract.

Arthur Ross, Prime Minister, said that Britain could re-sell 600,000,000 bushels annually of the wheat purchased from Canada at \$1.41 a bushel. The 1941-42 season price was \$2.50, the Argentine price \$3.14 and the price Britain was paying to her own farmers was \$2.29.

By H. B. Hardy. OTTAWA.—Canadian wheat farmers must be prepared to meet the possibility of a run-away rise in the cost-of-living and an unduly high price for wheat.

Supporting the five-year wheat agreement with Britain, with re-selling of surplus wheat to the British people, Mr. Gardiner said that the price of wheat would be based on parity, that is first it should bear a direct relation to the cost of production on the farm.

Says Canada Holds U.K. Bacon Market. WINNIPEG, (CP)—Agriculture Minister Campbell of Manitoba Thursday Canadian exporters need have no fears of losing the United Kingdom bacon market to Denmark "if we keep up the steady production of the quality we have already reached."

"I am sure there is room for our bacon on the British market as Denmark can't occupy it so to exclude ourselves totally." He was commenting on reports that Denmark had an assured market in the United Kingdom for 90 percent of its bacon.

## NO OTHER TIRES ARE BUILT LIKE THE NEW SILVERTOWNS

They're new and different tires—built from a new kind of rubber that runs cooler, wears better. New cord construction employs more and stronger cords—making bodies 35% stronger.

**THEY OUTWEAR PRE-WAR TIRES**

The new longer mileage Silvertowns are made in different tread designs . . . including the famous Life-Saver Tread that wipes wet pavements dry . . . and the Road-Level Tread that puts a wider, flatter rubber surface on the road to share the burden. Choose either of these great new Silvertowns for your car. Both will outwear the best of pre-war tires. They're the greatest mileage tires of all time . . . built by B. F. Goodrich, makers of over 32,000 articles of rubber, including footwear and industrial rubber products.

## Coupons to Aid Hungry Are Admission Fee

Montreal teenagers of the Y.W.C.A. Skivey club held a dance to aid the government drive

to "Share With the Hungry," the admission fee valid meat, sugar or butter coupons. Here a tango of the 300 members of the club are ready with their entrance coupons.

## West Is Hopeful Of Good 1946 Crop

By David McQueen  
 WINNIPEG, (CP) — Sunshine and intermittent thunderstorms of a typical prairie summer have combined in the right proportions to give western farmers expectation of a good crop in this first post-war year when Europe looks to Canada for food more urgently than ever before.

In the words of official Ottawa, at this writing the story of the west's crop is:  
 "Prospects appear to be fairly good and some areas anticipate better-than-average yields."

Nothing that might be said about crop conditions can be all-embracing. In some sections there has been scanty irrigation, in others shrinkage, in others hail or frost. But the shelter belt this summer has been a bright green with the years of drought and depression almost forgotten and many a battered barn gleams with new paint. Most important crops generally ripened early. In many districts harvesting already is widespread.

Rough estimates of this year's wheat crop have placed it at 422,000,000 bushels compared with 297,000,000 in 1945.

Those figures are six weeks old and due for revision but they show the feeling of the west, even if they do indicate no hope of a harvest anything like the 525,000,000 bushels of wheat in the record year of 1942.

Export 390,400,000 bushels compared with 438,100,000 last year.

Coarse grain crops are expected to yield around 390,400,000 bushels compared with 438,100,000 last year.

Carl Stimpfle, president of the Alberta Farmers' union, reporting on his province, said recently "we have as nice a stand of wheat as I have ever seen."

He estimated the average yield at 30 bushels to the acre.

Saskatchewan expects to produce an average or slightly better than average crop. Latest reports run from two bushels to the acre in ultra-poor sections to 35 bushels to the acre for wheat.

James MacLean, agricultural secretary of the Manitoba Federation of Agriculture, spoke optimistically too of Manitoba's crop chances and harvesting already has shown some yields of 40 bushels to the acre in that province.

Unsmack Ex-corporal Posing as Captain PHILADELPHIA (AP) — A dishonorably discharged corporal put on the uniform of an air corps captain and spent three months as a patient in an army hospital before the hoax was discovered, the federal bureau of investigation says.

Clarence R. Huntington, 33, is being held on \$1,000 bail on a charge of impersonating an officer. Hospital officials finally found Huntington's serial number was wrong.

## Rabbit Discovers Rich Opal Source

MELBOURNE, (CP) — An aborigine named Monney, with the assistance of a rabbit, has discovered an "unbelievably rich" opal field in central Australia, according to Oswald Grayson, a cartographer. Monney, it seems, found a small piece of opal scratched out by a rabbit. Since February the field has yielded opals worth \$51,000.

## Warns Kurt Meyer Possible "Hitler"

VANCOUVER, (CP) — Belief that German Maj.-Gen. Kurt Meyer is a possible "Hitler of the future" and should never be released from prison at Dorchester, N. B., where he is serving a life term—was expressed Thursday by Lt. Col. Bruce MacDonald, O.B.E., of Windsor, Ont., who prosecuted Meyer.

Meyer was tried for war crimes under Canadian court martial procedure last December at Aurich, Germany. Acquitted of charges of inciting his soldiers to deny quarter to Allied troops and of responsibility for slaying 18 captured Canadians, he was sentenced to be shot. Later the sentence was commuted to life imprisonment.

Lt.-Col. MacDonald, who is here for a brief vacation before resuming private law practice in Windsor, said:

"Meyer is only 35. If he is pardoned in 10 years, or even 20, and goes back to Germany while there is still any smouldering remnant of Hitlerism or something similar, he could easily become the idol of the German people."

## Awards Are Given To Edmonton Man

Joseph Charles Turgeon, 9005 115 ave., a veteran of two wars during which he reached the rank of major, and for some years employed by Northwestern Utilities Ltd., was awarded the Meritorious Service Certificate and the Bronze Medal of the Canadian Gas Association at a recent convention in Murray Bay, Que.

Mr. Turgeon's awards were in recognition of his act in saving Tommy Aaby, three-year-old son of Mr. and Mrs. Frank Aaby, when the boy broke through the ice of a slough near his home last March.

Northern Ireland has ordered increased prices for upholstered furniture and decreased prices for kitchen tables and cabinets.

## Benefits Are Urged For Indian Tribes

OTTAWA, (CP) — Recommendations for benefits for Canada's Indian population were made by the parliamentary Indian affairs committee in a report tabled Thursday in the commons.

The committee, made up of members of the senate and the commons and given the task of reviewing the Indian act, estimated that its work would cover another two sessions of parliament, but recommended that in the meantime these measures be taken to improve the status of Indians:

1. The Indian affairs branch in the present action to fill existing vacancies in the key posts of Indian agents and any vacancies within the branch itself.
2. At least two Indian agents at large be appointed.
3. Consideration be given by the Civil Service commission to the desirability of placing additional classifications of the Indian affairs field staff under the provisions of the Civil Service act.
4. More direct methods be employed for the return of rentals collected on behalf of Indian lessees.
5. The branch undertake immediately the drafting of plans for the construction of additional accommodation necessary to relieve the present overcrowding in certain Indian day schools and provide such other Indian day schools as may be needed.

6. The branch take steps to extend the fur conservation and development program, which has brought benefit to many Indians, into those provinces into which it has not yet been introduced.

Christiana, South Africa, will prospect for gold in its public square.

## Why Grow Old?

Fish can be baked or broiled instead of fried. They're better for you that way and will add less weight. Such cooking is better for the food conservation program, too.

BY JOSEPHINE LOWMAN  
DURING THE PAST week "Why Grow Old?" has brought you information about ways in which you individually can help the starving people of Europe, and at the same time, do yourself a big favor. We have recounted some of the small things you can do and have shown how they count up to a big total in human rescue abroad and self-improvement at home.

The Red Cross has prepared a chart by which you can grade yourself on how well you are doing your part in the food conservation program. Score five for every one and try to make your score one hundred.

You will find these are rules you should follow, anyway, for thrift and best health. Rich, greasy foods are not easily digested and baked and broiled foods are more healthful and retain more of their vitamins than many other methods of cooking. Good hygiene and preventive medicine should cause us to keep food away from insects and rats.

HERE ARE THE questions which appear on the chart:

1. Do oatmeal and other non-wheat products replace some of your flour and rice?
2. Do you make a flexible meal plan for a week ahead?
3. Are you using one fifth less fat?
4. Do potatoes replace some of your bread and cereals?
5. Do you buy only food you can use soon, not hoarding any?
6. Do you check the supplies you have on hand, making a shopping list before you buy any?
7. IS YOUR FIRST choice foods that are plentiful, such as potatoes, vegetables and fruits, in season?
8. Do you postpone buying foods that are scarce until you have used the supply on your shelf?
9. Do you prepare only the amount of food you know will be eaten?
10. Do you save fat trimmings from meat and melt them down?
11. Do you use this rendered fat before using new fat?
12. Do you broil, bake or boil instead of frying?
13. Do you cover and store fats in a cool dry place?
14. Do you take all fats unfit for use to your butcher?
15. Do you keep bread wrapped in a cool dry place so it won't mold?
16. Do you store dry and packaged food in covered glass jars or cans so insects or mice cannot get to them?
17. DO YOU SERVE small portions so there won't be any waste?
18. Do you use bread crumbs for seasoning?
19. Do you make boiled salad dressing instead of dressing with oil?
20. Do you use meat drippings for seasoning?

LONDON, Aug. 13 (CP)—Two hundred companies will show their products at the first post-war flying display and exhibition organized by the Society of British Aircraft Constructors. It will be at Radlett, Herts., Sept. 12-13.

## Dorothy Dix Says:

DEAR MISS DIX: I am a business girl of 33 and have just moved from the small town, in which I have lived all my life, to a large city in which I know no one except my employers and my fellow workers. How can I get somebody to introduce me to the people I should like to meet? And particularly how can I meet eligible men?

Please tell me how I can make social contacts that I desire.

ANSWER: In the country or small town people get to know each other because they are dependent upon each other. In a big city people avoid knowing each other because they are afraid of each other. So be cautious about making acquaintances, lest you find yourself stepping out with a jail bird, or that your girl friend is no better than she should be.

DEAR MISS DIX: I was married about five years ago to a girl I loved very much at the time, but she has become more and more distant and pushed me around until I don't even like to be around her. She carries the money and dishes a lot to me a little at a time. She cries when I start on a fishing trip or hunting, or even when I go to work. We don't have any money because no women dares to speak to me. She has driven away all my men friends.

ANSWER: Well, Sergeant, I think you had better take her advice and return to the Army. I should think an ordinary battle field would be a peaceful and restful place compared to a home dominated by such a female tyrant.

But why do you stand for it? No man has to put up with being henpecked the way you are unless he likes it.

DEAR DOROTHY DIX: Is it true that a girl of 18 or 17 is more emotionally mature than a boy of the same age? I say this because I am very young and I am a boy. Which of us is right?

ANSWER: You are. Of course, there are exceptions to all rules, but, generally speaking, a girl of 16 or 17 is at least two or three years older emotionally than a boy of the same age. Girls develop faster than boys do, and at an age when boys are indifferent to their appearance and have to be goaded into washing behind their ears and are interested in nothing but sports and consider girls pests, girls are already self-conscious, spending their time beautifying themselves, thinking themselves in love and planning their wedding. In the younger brackets it is practically always the girls who run after the boys and do the love-making.

## Believe It or Not! by RIPLEY

W.M. HAWK College City, Calif. GRAFTED 41 DIFFERENT FRUITS & NUTS ON A HARD SHELL ALMOND TREE IN 4 YEARS!

General Duty Nurse LUCY AGNES HANCOCK

Copyright by Lucy Agnes Hancock Distributed by NEA SERVICE, INC.

THE STORY: One stormy night two mysterious strangers, bringing a badly injured boy into St. Luke's Hospital, begged Dr. Hancock to try to save him without any explanation. Dr. Hancock, who had been told by the nurses that the boy was a "battered and bloodstained" creature, hesitated for a moment before he agreed to try.

VIII  
The midnight lull of sand-wiches and coffee arrived soon after the doctor left and Sally and Margaret sat down to enjoy their repast. The town clock struck two. The street outside was silent and deserted.

"I hate nights like this," Margaret muttered as she sipped her coffee. "They give me the willies."

"For heaven's sake, Maggie!" Sally cried. "You certainly are in a cheerful mood. I'll be glad when you'll get back. After all, what was that?"

"It sounded like a gun, Sally," Margaret whispered, teeth chattering. "Near, too. I'm going to put out the lights for a moment."

But it was necessary for suddenly the lights went out. Receiving was in total darkness. Street lights down in the city had been out for some time. Now the whole world was black. Sally crept to the outside door and stealthily turned the key in the lock. At the faint click, Margaret caught her breath and reached for Sally only to find she wasn't there beside her. She felt for her chair and slowly lowered herself into it.

"Sally!" she whispered, then more loudly, "Sally!"

"I'm right here," the other said and proved it by falling into her lap. Margaret gave a little squeal and the two went off into spasms of suppressed laughter. From the darkness room it was now possible

by some of Chicago's finest players. Mrs. Anderson unfortunately will not be able to play for a while because of damage to her eyes result from the fire.

Today's hand came up at her club the last time I was there. While there no trump was sure contract Mrs. Anderson (South) felt that the 100 honors justified a game bid in clubs. With the opening heart lead, it looked as though she would have to lose two spades and a diamond, and to split three-three and give herself that one chance to make the contract. She refused to win the first heart trick, but won the second with the ace, cashed the ace and king of clubs and king of diamonds.

Then led a small diamond to dummy's ace. She discarded the eight of diamonds on the king of hearts, then led the third diamond and ruffed it. This established dummy's fourth diamond, on which Mrs. Anderson discarded one of her losing spades, losing only a spade and a heart.

Mrs. Anderson could have taken a chance on playing East for the ace of spades. However, if the diamond suit had failed to break, she still would have had that possibility working for her.

The talpan, an Australian snake, is so poisonous that horses are said to die of its bite within four minutes

Develop Power From Zambesi  
JOHANNESBURG, Aug. 13 (CP)—Harnessing of the Zambesi to develop hydro-electric power for distribution over wide areas of the interior is suggested by director of irrigation L. A. Mackenzie. This power might be used for transport services, electrifying agricultural processes and industries, or pumping water for irrigation, stock and domestic purposes. The hydro-electric potentialities of the Zambesi might be used for the development of atomic energy in a form suitable for power purposes, which in turn might be used for distributing large quantities of water to parts of the country which cannot at present be developed owing to lack of water.

In early modern times, scurvy was the deadliest of diseases on long sea voyages.

## Club of City Aviators

### Breakfast in Vermilion

VERMILION.—Edmonton aviators have inaugurated a new multi-purpose organization among pilots which will be known as the "Breakfast Club." The group of aviators numbering 23 in the "club" swept down on the Vermilion field recently shortly before 10:00 a.m.

The aviators, along with town officials, had breakfast at the Bixton, spent a social hour with citizens here and then took off for the city.

**First Flight**—This was the first flight of its kind in Alberta and the selection of Vermilion for the inaugural visit was a tribute to the fact that Vermilion citizens were foresighted and progressive enough to commence work on a landing field years ago.

Vermilion has one of the best municipal landing fields in the west, long smooth runways, one 2,600 ft.

**Salesman Praises Vermilion Field**

VERMILION.—Airfield here came in for more praise this week when Jack Pawkes, flying salesman, landed here on Monday. Recently from the R.C.A.P. he had intended to fly from Saskatoon to Edmonton but received warnings of storms.

The Edmonton area and was advised to land at the Vermilion airport. His plane is equipped with two-way radio.

Mr. Pawkes claims that the local field is a real treat and is of the opinion that Vermilion has something that will prove of benefit to the town in the future, more so than many realize at present.

Mr. Pawkes had high praise for Len Pickett, superintendent of the Vermilion radio beam station, appreciating greatly the service and courtesy.

**Railman Retires After 35 Years**

VERMILION.—Peter Miller, well known Vermilion citizen, has retired from the railroad after 35 years' continuous service.

Mr. and Mrs. Miller have moved to Chilliwack, B.C. where they have purchased a home. Their home in Vermilion, family for 35 years, well-kept grounds and garden, which won the home grounds competition of the horticultural society on several occasions, has been purchased by Dr. and Mrs. A. Ben King.

**Funeral Is Held For T.J. Palser**

SPIRIT RIVER.—Funeral services were held here for Thomas J. Palser, an Imperial army veteran of two wars who died recently at the age of 61 years. He had suffered a long illness.

He is survived by his wife, seven sons and six daughters and 19 grandchildren. He was born in Monmouthshire, England and served in the Boer War and the First Great War.

Three sons were in the Second Great War. Mr. Palser had been a resident here since 1927.

Burial was in the veterans' plot in Spirit River.

**Gas Company Crew Leaves District**

ROUND HILL.—The Edmonton natural gas crew has been stopped at an encampment half a mile east of here since early this spring. They are now continuing on their way to a point in southern Alberta.

The men were here installing the new gas pipeline which runs about half mile south of Round Hill, dipping east from Bruce to Camrose.

**Stettler Motorist In Freak Mishap**

CORONATION.—A motorist from Stettler had a narrow escape from possible serious injury recently in a freak accident. While driving west from Thorne and near hit an obstacle in a ditch. His car landed on all four wheels.

The driver was forced to take the fence down and drive back onto the highway—uninjured.

**Hail Hits Crops In Asker District**

BASHAW.—Heavy rain and hail caused considerable damage to crops in the Asker district. The area damaged being about a half-mile strip.

Hail stones the size of 50 cent pieces broke some windows in some farm buildings. Estimated crop damage ranged from 25 to 100 per cent.

**FRUIT CROP GOOD**

ROUND HILL.—The berry crop, like the grain crops in this district, is very good. Saskatoons have been picked by the handful. Raspberries are plentiful and in good size. Raspberries are in progress. Many housewives are busy canning.

**RAIN HELPS CROPS**

CORONATION.—This district has sufficient moisture to fill and help crops which survived the three-week hot spell. A 1/2-inch rain was experienced Monday night, with some showers Tuesday. Threats of more rain are in progress.

**Hail, Wind Storm Hits Clive Area**

CLIVE.—Extensive damage resulted from a hail and wind storm in this district. Trees are reported 75 to 100 percent lost. The wind broke a few trees and damaged the farm of F. Hoffman. Several horses were injured when the barn's roof caved in.

Estimated damage to buildings is \$5,000.

other 4,000 feet in length, well marked according to regulations, and serviced by a department of Transport, radio beam station. The purpose served by the aviators "Breakfast Club" is to foster sociability and acquaintance among the members of the various air companies and schools in Edmonton; to create interest in flying; to provide a place for the student pilot to get away from the same surroundings and to acquaint them with navigation, map reading, cross country flying, and landing on strange fields.

**From City Club**

Pilots and planes here Sunday were from the Edmonton Air Club, Western Airplane, Associated Airways and the Air Hauling agency.

Citizens had several on hand to drive the aviators into town for their breakfast and out again. A goodly crowd of people were attracted by the large number of planes.

**District Personal**

ARLILLA.—Jack Wilkins is home for a visit—Mr. and Mrs. A. Ingram have left for the Pacific coast after a fortnight's stay here.

Having and berry picking are fairly general in the district—Some farmers have suffered heavy loss to their crops by hail—Mr. Stanley Munro have taken up residence in Bushy.

**See Government For India Soon**

NEW DELHI, INDIA. (CPN)—Barring serious disturbances, India, independent in 1947, will see the government functioning in two to four weeks. This is the opinion following the announcement of Jawaharlal Nehru, president of the All-India National Congress party.

For the first time, the British government is willing to give a single party the responsibility for forming a cabinet.

Mr. Nehru made a strong effort to win the support of president of the Congress party, Dr. B. R. Ambedkar, for a coalition cabinet.

Prepared to go ahead alone if he attempts to call the congress majority in the constituent assembly would override safeguards intended to protect the interests of the minorities.

League reactions were not immediately available. The congress party, which has been in power since the British mission's June 16 plan.

The cabinet will not be a free Indian government, as it is still subject to the veto of the constituent assembly, which will have ample power to give the constituent assembly full opportunity to plan India's future constitution.

**Round Hill Mine Steady Producer**

ROUND HILL.—Red Flame Coal Co., Ltd. mine here has been operating steadily throughout the summer.

Orders for coal, locally and outside, are being filled. More men are needed to help load machine cut coal and thereby increase production to meet the coming fall and winter demands. Coal is mined at a depth of over 100 feet and has a very high B.T.U. rating.

**Gets Hospital Bed As Hotel Crowded**

CORONATION.—An overnight visitor here is singing the praises of Coronation's hospitality.

The visitor found herself without bedroom accommodation due to crowded conditions at the hotel and rooming houses. She was invited to stay at the Coronation hotel and enjoyed a bed in the living quarters of that institution.

**TRIPLETS WEIGH 23 LBS.**

MELBOURNE, Australia. (Reuters)—Triplets whose combined weight of 23 pounds, one ounce, is believed a world record have been born to Mrs. L. Birchall at Yarrawonga, Victoria. The babies, all girls, weighed seven pounds and 13 ounces, seven pounds 12 ounces and seven pounds eight ounces.

Total cost of the war to Australia up to V-J day was \$4,444,000,000.

**Miners Present Wage Proposals**

CALGARY. (CP)—Representatives of the United Mine Workers of America, District 18, presented proposals for wage increases to representatives of the bituminous coal operators at a meeting here Thursday.

No statement on the proposals was made until after a Sunday meeting at which the operators will reply to the union.

It was learned that the Domestic Coal Operators' association representatives will meet the union for similar discussions Aug. 21.

**Would Set World Price for Wheat**

By Peter Inglis

WASHINGTON. Grain experts from many countries, members of the International Wheat Council, are under discussion in Washington for an attempt to set a uniform world export price for wheat.

Canada is represented on the executive committee of the council by Charles Wilson, Minister of Agriculture. A sub-committee of the council has drafted a new world wheat agreement and will submit it to the full membership for discussion.

Canada's wheat agreement with the United Kingdom would not be in conflict with such a multi-lateral pact, because an "escape clause" provides that the terms agreed on unilaterally between the dominion and Britain shall be subject to the conditions of any other wider pact to which both countries are parties.

Probably the most serious present barrier to attaining a uniform world price for the staff of life is the inflated export price of wheat both in the United States and in Argentina.

Logically, a world price would not be higher than the Canadian figure of \$1.35 a bushel. The United States price recently has been around \$2.15 and the Argentine prices around \$3.15.

**Wetaskiwin Places Ban on Dances**

WETASKIWIN.—As a precaution against the spread of infantile paralysis all public dances within the city limits are forbidden under further notice.

Action was taken by the public health board on the advice of the medical health officer, Dr. T. B. Stevenson. The health officer reported four cases of paralysis in this district within the past month. Three of the sufferers were children and the other a young man.

**Six Donate Skin To Aid Burned Boy**

CHICAGO. (AP)—Little Melvin Melvin, a four-year-old boy, needed 300 square inches of skin to survive. Five pretty girls and a former soldier volunteered at Illinois Masonic hospital. A physician removed more than 30 square inches of skin from the right leg of a boy. Physicians said the boy, burned when his pajamas were ignited from matches, was expected to recover.

**Albion Winners At Vernon Events**

VERNON, B.C. (CP)—"Vernon Days, the Kinsmen's club gala two-day event, is being held from California, Chicago, New York and all parts of Canada.

During the parade, a rider, a rider J. Cowie, broke his arm. The horse, a black and white, was driven by W. J. Thompson, Black Diamond, Alta. Jim Robb, of Chase, and George Spence, of Calgary, turned in rides which tied for second place.

Glen McQuay, Nevis, Alta., got his four thoroughbreds around the barrels in the chuck wagon race, with first place, with Scott Scott of Enderby and Charlie Clark, driving the Chick and Shannon entry from Battle River, Alta., coming second and third.

**AVERT BRIEF STRIKE**

Two-hour transportation tie-up recently, when Manuel R. Palacios, secretary of labor, was able to persuade union workers to stay on their jobs. Even that brief stoppage, throughout the nation, would cause irreparable loss, he convinced union leaders and they appreciated the gravity of the situation and did not order the walk out, scheduled between 11 a. m. and 1 p. m.
